CERTIFICATES

Universidad Tecnológica Nacional – Facultad Regional Córdoba. (Argentina.)
Full-Stack Training. May-December 2023.
- Part One: Node.JS Back-End Development
- Second Part: React.JS Front-End Development

Udemy
- University Web Development: FrontEnd Web Developer.
- JavaScript University: From Zero to JavaScript Expert.
- Angular University: From Zero to Expert in Angular.
- SQL: Database Creation From Zero to Professional.
- Agile Project Management with Scrum: AGILE Course.

Others
- Scrum Fundamentals Certified by SCRUMstudy.
- Introduction to Algorithms and Programming by TodoCode.

EXPERIENCE

Present
Independent Projects.
As part of my training in Back-End and Front-End I have managed to carry out various projects.
One of the most recent is the creation of a RESTful API from scratch, managing Node.Js, Express.Js, and NoSQL Databases with MongoDB, where I did authentication and authorization with OAuth, unit and integration tests with Jest, debugging and deployment using AWS, ECR and Docker.

Front-End Developer.
OFYS S.A.S.
2020-2022
In this first real challenge where I collaborated in the development of a web application for a local financial company, I made use of main technologies such as HTML5, JavaScript, CSS, Bootstrap, JQuery, Responsive Design, implementation of Unit and Integration Tests, MySQL for me Database and achieving a connection to a Back-End made in Java, as well as the security of the application and Git as version control.

SKILLS

- Web programming in HTML with CSS and JavaScript/Jquery sheets. Bootstrap CSS Libraries and Responsive Design.
- Angular Framework, Jest Testing, React.
- GIT Versioning Systems. GitHub.
- Back-End Programming with Node.JS, Express.JS. Immersed in learning Java 15.
- Databases with MySQL and MongoDB.
- Ease of learning new tools and technologies.
